Home Health Agencies

Home health agencies (HHAs) are licensed agencies that provide skilled nursing care in the home. Services may include skilled therapies, wound care, gait training, pain management, chronic disease management, post-operative care, and more. Home health agencies are licensed through the Wisconsin Department of Health Services (DHS), Division of Quality Assurance (DQA). Providers may also include home health aides to provide assistance with personal cares, such as bathing, dressing, grooming, and toileting needs. Skilled home health care is typically covered by Medicare, Medicaid, VA, and most insurance plans if it is determined medically necessary, contains a physician’s order, and meets homebound criteria. Home health care is typically coordinated through your physician, hospital or nursing home discharge planner. Call the provider directly for more information.
