CONDITIONAL USE

CONDITIONAL USE

A Conditional Use allows an owner to put property to a use which the zoning ordinance expressly permits when certain conditions are met. In designating conditional uses, a community has determined that such uses are not suited to all locations in a zoning district but may be authorized if adaptable to the limitations of a particular site and adjacent land uses. A Conditional Use is sometimes called a special exception. The two terms mean the same thing.

PERMIT PROCESS

The following items are required:

- 1) Submit a completed application form with a \$531 non-refundable fee. Fee doubles if application is submitted after a use has commenced.
- 2) Provide a detailed description of your project, and a site diagram.
- 3) Contact your Town Board to inform them of your request. You may be asked to attend a Town Board meeting to discuss the application.
- 4) Allow the Board of Adjustment to conduct an on-site inspection of the property. Proposed structure location should be clearly identified.
- 5) Attend a public hearing on your application. Contact the Code Administrator if you can not attend.

EXPIRATION

A Conditional Use permit expires if the conditional use is not commenced within 24 months from the date of the permit or if the conditional use is discontinued for more than 12 months.

CONDITIONAL USE PERMIT CRITERIA

In review of an application, the Board will consider the following factors in deciding whether to grant a conditional use permit.

- 1) The maintenance of safe and healthful conditions.
- 2) The location of the site with respect to floodplains, rivers, streams, and lakes.
- 3) The location and size of the site in relation to the nature and intensity of the proposed use.
- 4) The location, nature, and height of buildings, walls, and fences will not discourage the appropriate development and use of adjacent land and buildings or impair the value thereof.
- 5) The effect on nearby properties of noise, fumes, vibration, or flashing lights.
- 6) Is the "use" in harmony with the orderly development of the district.

Other relevant factors under State Law and the Manitowoc County General Zoning Ordinance.

CONDITIONAL USE

HEARING PROCESS

After the Planning and Zoning Department receives your application materials, it will notify you in writing of the hearing date and time. It will also publish a hearing notice in the Herald-Times-Reporter and send a copy to neighboring property owners.

At the hearing, you may appear in person or be represented by agent or attorney to speak on your behalf. As the property owner you must provide verifiable facts upon which the Board of Adjustment can base its decision. Other people can also attend the hearing to testify for or against your request.

LIMITATIONS

A Conditional Use Permit only authorizes the use specifically described in the permit. The use may not be changed or expanded and is strictly subject to the conditions specified in the permit.

MODIFICATIONS OR REVOCATION

A Conditional Use Permit may be modified or revoked by the Board of Adjustment if, after a hearing, the board determines that the terms of the permit have been violated.

BOARD OF ADJUSTMENT DECISIONS

- The Board of Adjustment will consider the evidence presented and make a decision.
- If the Board of Adjustment has sufficient information it will either approve, modify and approve, or deny your request. It may table your request until you provide more information if needed.
- The Board of Adjustment will issue a written decision and file a copy with the Manitowoc County Planning and Zoning Department.

JUDICIAL REVIEW

If your variance request is denied, you may appeal the decision to Circuit Court as provided in Wisconsin Statute s. 59.694(10). Even if approved, a conditional use may be appealed to circuit court by an aggrieved party. All appeals must be filed according to State Statutes (within 30 days) after the decision is filed with the Manitowoc County Planning and Zoning Department. For this reason you may want to delay your project until the appeal period has expired.

CONDITIONAL USE APPLICATION

CONDITIONAL USE PERMIT STANDARDS

Does the proposed use endanger the public's health, safety and welfare?

Is the proposed use in harmony with the orderly development of this zoning district?

Will the proposed use significantly impair the value of surrounding properties?
Why?

Is the proposed use more objectionable to nearby properties by reason of flashing lights, fumes, noise, vibration, or other factors than the operation of any allowable principal use? _____
Why?

Does the proposed use discourage the appropriate development and use of adjacent land and buildings? _____
How come?

OTHER DECIDING FACTORS

Describe the intensity, location, nature, and size of the proposed use.

Describe the height, location, and nature of structures associated with the use.

Describe the relationship of the structures and the use to the site on which it is located, surrounding properties, and existing future streets.

SITE DIAGRAM

SITE DIAGRAM

The site plan is an important piece of information in your file. An accurate diagram showing the relationship of your buildings and/or proposed construction to the lot lines, shorelines, highways, structures on adjacent property and other physical features provides us with the essential information we need. It is not required that you submit professional quality plans, but if you cannot accurately and clearly illustrate your proposal, it is recommended that you obtain assistance in preparing your site plan.

Some general guidelines:

- Use a ruler. Freehand drawings are often of questionable accuracy.
- Scaled or well-proportioned drawings are preferred.
- If a survey is available, sometimes it works well to sketch your proposal directly on a copy of it.
- Accurately measure and illustrate all the critical measurements and do not estimate.
- The correct setback measurement is the shortest straight line between the building and the line being measured to.
- Supplemental drawings, such as cross-sections, may be helpful.
- Locations of well and septic should be provided for yours and adjacent properties.
