

Attention Dairy Exhibitors:

There is much to be considered with the Department of Trade, Consumer and Protection (DATCP) order that has come into effect. The testing mandate on lactating dairy cattle and the H5N1 in Dairy Cattle are changing every day and will be in effect until 60 days following the last positive test in the United States.

How we have done things in the past or what the fair looks like will be different this year. We will work together to make sure the safety of our exhibitors, animals and Fairgoers is at the forefront of every decision.

We encourage you to use your farm Veterinarian, Angie Ulness, Manitowoc County Dairy Educator and Lee Glaeser the Manitowoc County Fair Dairy Superintendent, for questions and guidance with testing and biosecurity recommendations.

The Expo-Ice Center Board will continue to monitor the orders and we will get through this together.
