

# BARNYARD RUNOFF CONTROL SYSTEM

*What is a  
Barnyard Runoff  
Control System?*

A system of structural practices such as roof gutters, grass filters, or diversions installed to divert clean water away from barnyards or to divert runoff and reduce discharge from a barnyard.

*Why install a Barnyard  
Runoff Control System?*

To prevent the runoff of nutrients and to be in compliance with state standards.

*Things to Consider*

- Practices also available to reduce runoff of feed leachate and milkhouse waste
