Home Health Agencies

Home health agencies (HHA) provide skilled nursing care, therapy, and other services in the home. Skilled services are provided by or under the supervision of a licensed professional. Services may include skilled therapies, wound care, IV therapy, chronic disease management, post-operative care, and more. This type of care is prescribed by a physician. Medicare, Medicaid, and most private insurance plans will cover all or part of the cost of home health care if meeting the eligibility criteria. Home health agencies are licensed and regulated through the Wisconsin Department of Health Services (DHS).
